## PROFESSIONAL PROFILE

---

Proactive student passionate about web development and programming, currently in the 2nd year of a Higher Degree in Web Application Development (DAW). I am focused on mastering both frontend and backend technologies, including HTML, CSS, modern JavaScript (React, Angular), Node.js, and databases, as well as Java and Python. My goal is to apply my technical foundation, learn from industry experts, and contribute to innovative web solutions and functional applications. I am seeking an opportunity to grow professionally in a dynamic environment while adding value to the team.

## EDUCATION

---

### Higher Degree in Web Application Development (DAW)

CESUR (Seville, Spain).

*Sept 2024 - Present*

- Key Modules

- Databases
- Programming
- Development Environments
- Markup Languages
- Client-Side Web Development
- Server-Side Web Development
- Web Application Deployment
- Web Interface Design

### Java SE & Java EE Programming Course

Píldoras Informáticas.

*Feb 2026 – Present*

Comprehensive training in Java application development, including JDBC database management, Object-Oriented Programming (OOP), socket communication, and multi-threading.

## TECH STACK (Foundation Level)

---

- **Frontend:** HTML5, CSS3, Responsive Design, JavaScript ES6
- **Backend:** Java SE / Java EE, Node.js, Express, SQL, JDBC
- **Databases:** MySQL
- **Tools:** Git, GitHub, VS Code, IntelliJ, Eclipse, FileZilla, BaseX, VirtualBox

## PRACTICAL PORTFOLIO: Frontend and Backend Projects

---

My portfolio demonstrates the practical application of the knowledge acquired during my Web Application Development (DAW) training, as well as my self-taught initiative to explore advanced technologies. These projects consolidate my skills in:

**Frontend (Client-Side):** Responsive interface design and interactivity development using **HTML5**, **CSS3**, and **JavaScript**.

**Backend (Server-Side):** Implementation of server-side logic, **database** management, and deployment of **Full Stack** solutions.

### Proyecto 1: Mi Portfolio Web

- **Key Tech:** **HTML5** (Semantic), **CSS3** (Flexbox/Grid, CSS Variables), **Responsive Design**, **GitHub** Pages.
- **Description:** Developed a modern, fully responsive bilingual (Spanish/English) website. Implemented Flexbox and CSS Grid for structure and CSS variables for efficient style maintenance and theme management.

## PROFESSIONAL EXPERIENCE (National & International)

---

### Trainee Web Developer (Front-End/Back-End Focus) | Cesur

Sept. 2024 - Present · Seville, Spain.

- Currently in the **second year** of a Higher Degree in Web Application Development (**DAW**), applying theoretical knowledge to functional projects within a simulated development environment.
- **Frontend:** Creating responsive and user-centered layouts (UI/UX) using HTML5, CSS3 and JavaScript.
- **Logic & Backend:** Building a solid foundation in Java and SQL for data management and internal application logic.
- **Management:** Applying **Agile methodologies** and version control (**Git**) for efficient workflow management.

### Photographer, Graphic Designer & Creative Manager

*Oct. 2010 - Present · Seville, Spain*

- Long-term activity focused on **visual content creation** and project management, providing a strong UI/UX vision for web development.
- **Graphic Design:** Corporate identity creation (logos, signage), demonstrating mastery of composition and visual hierarchy (key skills for Frontend).
- **Technical Precision:** Digital photo retouching, optimization, and resizing (validating software proficiency and the quality of visual assets for the web).
- **Self-Management:** Planning, client acquisition, and event promotion, demonstrating self-management and a results-oriented approach.

### Operations, Production & Customer Service Management | International & National |

*2016 – 2024 · Seville – London*

- **Companies:** Seville European Film Festival, Sevilla FC Store, Konecta, Cirque du Soleil, Amazon PhotoStudio, London Hospitality.
- **Operations & Team Coordination:** Team Leader at the Cartuja Center venue (Seville European Film Festival). **Responsible for task management and organisation** for the entire staff and audience, as well as managing audience flow at prestigious international events (Cirque du Soleil).
- **Data & Systems Management:** Handled sensitive real-time data and used corporate software for product management, ensuring precision and data integrity (crucial for Backend development). **Customer Service & Sales:** Managed store operations, cash handling, and conflict resolution in high-traffic environments (Sevilla FC Store, KidZania London, Hospitality), ensuring customer satisfaction (essential for a user-centered product vision).
- **International Experience:** **3 years of residency in London**, working in multicultural environments and providing bilingual communication.

## SOFT SKILLS

---

- Adaptability
- Commitment
- Effective Communication
- Growth Mindset
- Organization
- Perseverance
- Proactivity
- Teamwork

## LANGUAGES

---

- **Spanish:** Native
- **English:** Advanced (3 years of professional residency in London)

## CERTIFICATIONS

---

- **AI Development Course** – Mouredev with certification  
Feb 2026 - Expected
